

Invitation to Respond to Survey: Defining Effectiveness in OECMs

Dear all,

I'm inviting you to complete a survey that seeks to understand how countries define and measure 'effectiveness' in other effective area-based conservation measures (OECMs). This will be part of my honours research project at Monash University.

Please complete this survey if you have knowledge and expertise in, or have been involved with, national OECM policy development or implementation in at least one country.

👉 Access the survey [here](#) (or scan the QR code below)

🕒 Estimated time: 20 minutes

All responses will remain anonymous, but you can choose to share your contact if you'd like to be acknowledged for your contribution.

Please share this invitation with anyone else you think would have valuable insights. If you have any questions, feel free to reach out to me via email at brigitta.gunawan@monash.edu

Thank you for your time and valuable input!

Best regards,

Brigitta Maria Andrea Gunawan
